

# Nueva plataforma WEB OF SCIENCE

Biblioteca Universitaria de Córdoba

# Nueva plataforma WEB OF SCIENCE

Base de datos de [Web of Science](#) (SCIE, SSCI, AHCI, ISTO, ISSHP), Journal Citation Report (JCR-S, JCR-SS), Essential Science Indicator, Medline y como novedad se incluye el acceso a Scielo Citation Index.

Funcionalidades que aportan mayor valor :

**Acceso a las bases de datos canceladas: Current Content, Derwent e Index Chemicus y Current Chemical Reactions, en la misma plataforma de WOK desde Enero 2014**

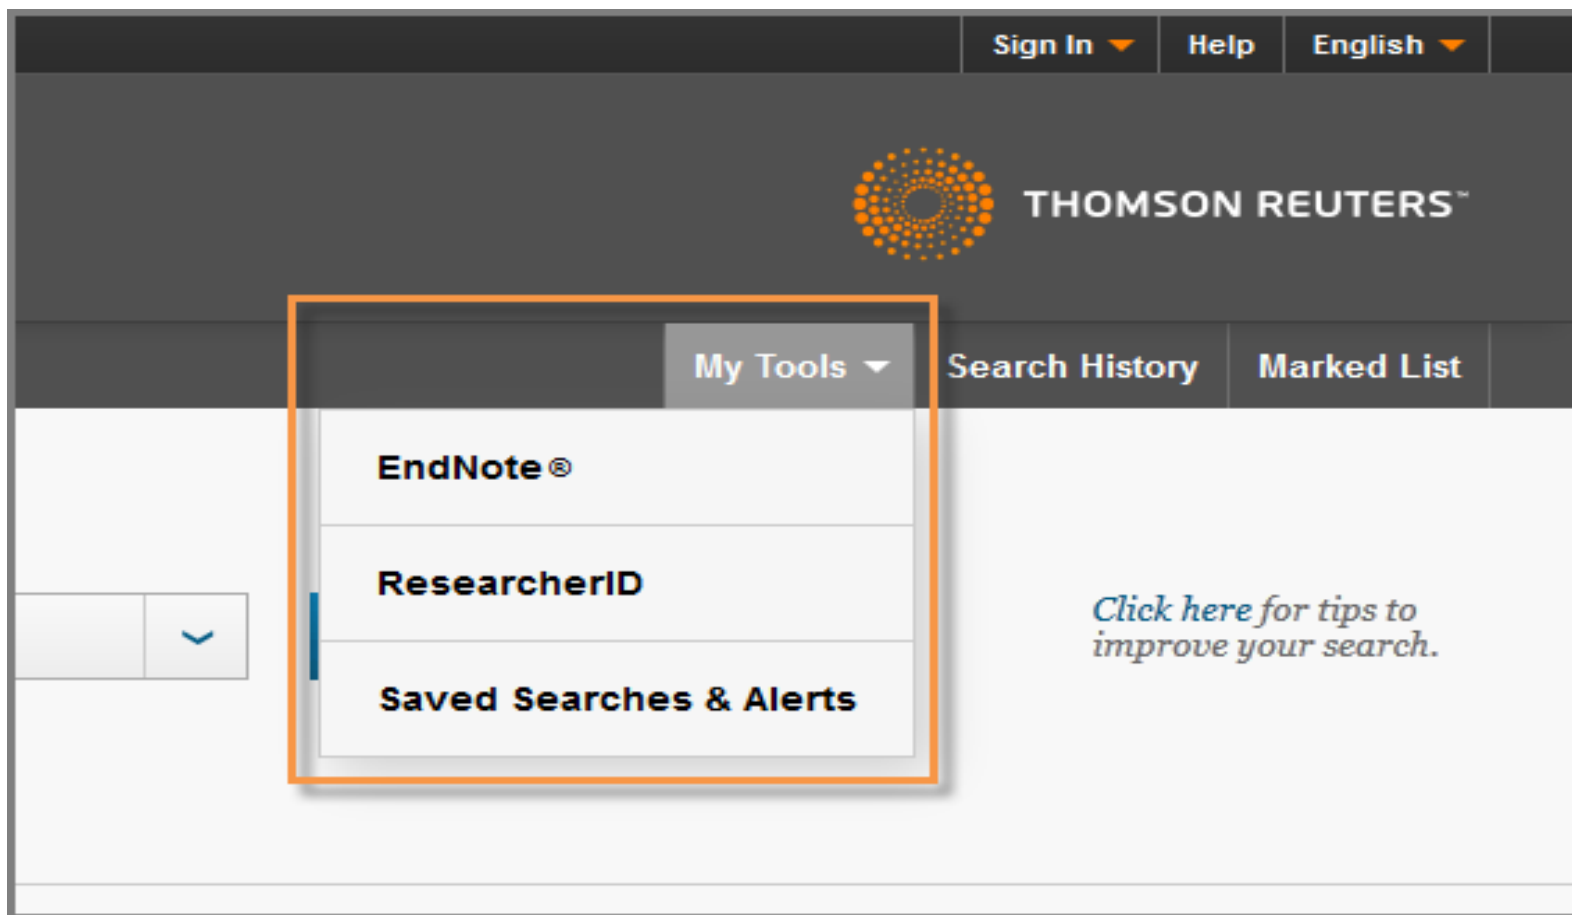

**Adaptación de la plataforma WOK a Curriculum Vitae Normalizado (CVN)**

**Obtención de la tabla de citas mundiales por categorías limitado al concurso Severo Ochoa o similar**

**Acceso a los metadatos bibliográficos y las citas de WOK para los repositorios**

**Acceso a JCR y ESI a través de la nueva plataforma Web of Science Analytics, en el último cuatrimestre 2014**

Desde la página de inicio y a través de My Tools tenemos acceso a EndNote, ResearcherID y a la opción de Salvar las búsquedas y Crear alertas

# Web of Science

# All Database, nos muestra las bases de datos disponibles desde nuestra cuenta. Web of Science Core Collection es el anterior WoS

The screenshot displays the Web of Science interface. At the top, there is a navigation bar with links for 'Web of Science™', 'InCites®', 'Journal Citation Reports®', 'Essential Science Indicators™', and 'EndNote®'. On the right side of this bar are 'Sign In', 'Help', and 'English' options. Below this is the 'WEB OF SCIENCE™' logo and the 'THOMSON REUTERS™' logo.

The main navigation area includes a 'Search' button and a dropdown menu labeled 'All Databases'. This dropdown menu is open, showing a list of databases: 'All Databases', 'Web of Science™ Core Collection', 'Biological Abstracts®', 'BIOSIS Citation Index™', 'BIOSIS Previews®', 'CABI: CAB Abstracts® and Global Health®', 'Chinese Science Citation Database™', 'Current Contents Connect®', 'Data Citation Index™', 'Derwent Innovations Index™', 'FSTA® - the food science resource', 'Inspec®', 'MEDLINE®', 'SciELO Citation Index', and 'Zoological Record®'. The 'Web of Science™ Core Collection' option is highlighted with an orange box.

The search area features a 'Basic Search' section with a search box containing the example text 'Example: oil spill\* mediterr'. To the right of the search box are fields for 'Topic' and 'Search'. Below the search box is a 'TIMESPAN' section with a radio button for 'All years' and a date range selector set to 'From 1864 to 2013'. There is also a 'MORE SETTINGS' link and a 'Customer Feedback & Support' link.

At the bottom of the page, there is a blue banner with the text 'Take advantage of the full functionality in the Web of Science.' and a link to 'Click here for online training modules.'. The footer includes 'FECYT - TEST', 'Ministerio', 'EPS', and a 'Like' button.

## Cancer treatment and survivorship statistics, 2012

By: Siegel, R (Siegel, Rebecca)<sup>[1]</sup>; DeSantis, C (DeSantis, Carol); Virgo, K (Virgo, Katherine); Stein, K (Stein, Kevin)<sup>[1]</sup>; Mariotto, A (Mariotto, Angela); Smith, T (Smith, Tenbroeck)<sup>[1]</sup>; Cooper, D (Cooper, Dexter)<sup>[1]</sup>; Gansler, T (Gansler, Ted); Lerro, C (Lerro, Catherine); Fedewa, S (Fedewa, Stacey)...More

CA-A CANCER JOURNAL FOR CLINICIANS  
Volume: 62 Issue: 4 Pages: 220-241  
DOI: 10.3322/caac.21149  
Published: JUL-AUG 2012  
[View Journal Information](#)

### Abstract

Although there has been considerable progress in reducing cancer incidence in the United States, the number of cancer survivors continues to increase due to the aging and growth of the population and improvements in survival rates. As a result, it is increasingly important to understand the unique medical and psychosocial needs of survivors and be aware of resources that can assist patients, caregivers, and health care providers in navigating the various phases of cancer survivorship. To highlight the challenges and opportunities to serve these survivors, the American Cancer Society and the National Cancer Institute estimated the prevalence of cancer survivors on January 1, 2012 and January 1, 2022, by cancer site. Data from Surveillance, Epidemiology, and End Results (SEER) registries were used to describe median age and stage at diagnosis and survival; data from the National Cancer Data Base and the SEER-Medicare Database were used to describe patterns of cancer treatment. An estimated 13.7 million Americans with a history of cancer were alive on January 1, 2012, and by January 1, 2022, that number will increase to nearly 18 million. The 3 most prevalent cancers among males are prostate (43%), colorectal (9%), and melanoma of the skin (7%), and those among females are breast (41%), uterine corpus (8%), and colorectal (8%). This article summarizes common cancer treatments, survival rates, and posttreatment concerns and introduces the new National Cancer Survivorship Resource Center, which has engaged more than 100 volunteer survivorship experts nationwide to develop tools for cancer survivors, caregivers, health care professionals, advocates, and policy makers. CA Cancer J Clin 2012. Published 2012 American Cancer Society.

#### Abstract

Comparative analysis of molecular sequence data is essential for reconstructing the evolutionary histories of species and inferring the nature and extent of selective forces shaping the evolution of genes and species. Here, we announce the release of Molecular Evolutionary Genetics Analysis version 5 (MEGA5).
